ABOUT NIRMAANA INTERNATIONAL CONFERENCE

NIRMAANA is a biannual flagship International Conference organized by INSTRUCT, bringing together Engineers, Architects, Builders, Contractors, Industrial Specialists and Academicians from across India and around the world. As the challenge of repairing and rejuvenating structures grows ever more urgent, innovative solutions and sustainable practices are becoming essentials. The conference provides a dedicated platform for exchanging ideas, innovations, and technologies involved to make your structures safe with a new look !

Why REJUVENATION OF STRUCTURES?

Rejuvenation of structures - involves repairing and strengthening aging or damaged buildings to restore their load-bearing capacity, durability, and safety. This process typically includes crack injection, concrete jacketing, corrosion mitigation, and adding fiber-reinforced polymers (FRP), extending the lifespan of the asset or structure while avoiding costly demolition. Rejuvenation offers a strategic alternative, focusing on extending the operational lifespan of existing assets or structures through advanced retrofitting and strengthening techniques.

Beyond mere structural integrity, rejuvenation addresses the evolving needs of modern society. Buildings that were once efficient decades ago may no longer meet contemporary standards for energy performance, seismic resilience, or occupant safety. By integrating smart materials, high-performance coatings, and innovative structural systems, we can transform aging monuments into sustainable, high-performing assets. This process not only preserves the cultural and architectural heritage embodied in these structures but also aligns with global sustainability goals by minimizing waste and resource consumption. Ultimately, the rejuvenation of structures is about bridging the gap between historical resilience and future-ready adaptability, ensuring that our built environment remains safe, functional, and aesthetically vibrant for a generation !

INSTRUCT

INSTRUCT is a 'not-for-profit' institute in the service of construction industry for over thirty five years. It was originally conceived as 'Centre of Awareness in Construction and Engineering' in 1989 by a few like minded, dedicated professionals, to provide high quality training to the construction industry fraternity both to upgrade skills of craftsmen and to update engineers on the latest technology.

During the past thirty seven years, **INSTRUCT** has trained over 40,000 personnel through more than 1650 training programmes. It has earned recognition and awards for its service to the industry from premier bodies such as, Construction Industry Development Council, Rotary BSE,etc., The latest recognition earned for its service in **Educating Construction Industry** is the prestigious **'Vishwakarma Award'** by CIDC for the year 2023. Received **16th CIDC 'Vishwakarma Award'** for Creating Social Development and Impact recently in 2025.
